

ENTITIES

Abstract class

Attributes

+ attribute1: type = defaultValue
+ attribute2: type
- attribute3: type

Operations

+ operation1(params): returnType
- operation2(params)
- operation3()

Class

Attributes

+ attribute1: type = defaultValue
+ attribute2: type
- attribute3: type

Operations

+ operation1(params): returnType
- operation2(params)
- operation3()

Interface

Attributes

+ operation1(params): returnType
- operation2(params)
- operation3()

Enumeration

Attributes

• VALUE_1
• VALUE_2
• VALUE_3

RELATIONSHIPS
